Description

The COVERSAFE™ adhesive film has major advantages:

- a continuous triple protection (24 hours a day): viruses (including coronavirus); bacteria; yeast and molds
- a rapid action (example on coronavirus 229E : 90% in 1h ; >99,9% in 24h) 1
- a permanent and stable action over time (technology validated for 4 years of continuous use, without loss of efficiency) 2
- a natural and biocompatible technology: safe for the skin 3 discreet once applied (thin, transparent and matt)
- easy installation and removal without residue 4
- can be cleaned with common cleaning products (soap, bleach, disinfectant) without
- degradation of the antimicrobial activity

Technical features and structure of the COVERSAFETM film:

- Total thickness (excluding liner): 0,14mm
